2. Once in the park we will be going straight up the access road to the parking lot. This is an unpaved parking lot, paved parking is very limited. There are a few handicapped parking places up by the lighthouse.
3. Return trip will be using this same route, only in reverse.
4. If you use mapquest to get your route, it will take you the shortest way, which is not the easiest way. Those using a GPS will also be taken a different route. This route was selected to assist in keeping the group together with the fewest number of traffic lights.
